Dear Business-Partner,

we are grateful that there has been no case of COVID-19 (Corona) in our workforce so far and that we - as of today - are still able to produce your orders in the usual good quality.

We took appropriate measures at an early stage to protect the health of our employees and at the same time ensure the production of your orders:

- We have canceled outside appointments and business trips until further notice. Most of the meetings now only take place digitally.
- We do not receive visitors. Service providers may only enter our buildings on very important occasions and with increased security precautions.
- The production is divided into two independent shifts.
- Offices are only occupied by one person or are at least three meters apart.
- High hygiene standards around the company and educational posters sensitize the workforce.
- The supply chain works. We are also equipped with all the materials we need to produce your orders. As of today, impairments are not expected.

The availability of all contact persons known to you is guaranteed.

We want to get through this crisis together with you and emerge stronger from it. A good business partnership is evident in the crisis. Let us be level-headed and accept the challenge.

Stay healthy!

Sincerely yours

Wilh. Manz GmbH & Co KG
